Feb 14th/66

Dear Mr May -

Mr Lindsay the colored person who brought a letter of introduction from you - has called upon me once or twice - I fear his coming to England is a mistake - he is disappointed - he seems to expect that the English should board him and educate him - free of expense - because - we assist the Freedmen in America - The notice about him in the Liberator last November - and your letter to me - spoke of advice &c - not pecuniary help - Lecturers are not paid in England as in America - and - now - there seems no demand for lectures - Mr Lindsay says he can do nothing else - I gave him letters of introduction to Dr Southwick - the Secretary to the Freedmens Association - thinking it possible the Association might give him employment - but - in vain - also to Mr Chesterton - also I hope will introduce him to

the leading Methodists in Kingston — I have not seen Mr Lindsay since — but I much fear he has committed the error — not an uncommon one — of coming to England in the hope of finding a competency without any exertion on his own behalf — —

In this morning's paper — I read — an Amendment being passed — conferring citizenships on all — without distinction of colour — in the United States! — can this be true? — I have not heard from you — since I sent — through D^r — Innes — 40 — in Dec^r — again 40 — in Jan^y —

I hope to send a further sum — in March — but — just now — money is being much subscribed for Jamaica — which lessens my hope of doing much for the Freedmen in America — and all thoughts almost is concentrated upon Jamaica —

I have to thank you & through you Mrs Scott

forwarded to the Liberator - the Liberator that has done such noble work - I had hoped that my letter of the deceased wife of our Lord - would have appeared in this publication in the last number - but I suppose not - as it is not there - nor - any address to the Spanish ladies of Madrid who have organized an Abolition Society - with reference to Cuba - and are working bravely - and publish a weekly paper - called "The Abolitionist" - I hope we shall see the honored Letter of American Abolitionists Lloyd Garrison - this year - he will be warmly welcomed to England - Edmund Quilter, Hannah Backhouse have lately joined our Negro Aid Society - Both Lord men & true -

Believe me dear Mrs May

sincerely yours

Thankful Dayton -

Miss Rennie is working exceptionally in

the Indian University - Hospital - pitiful
needy as an official nurse -
